

MINISTRY OF MINES AND ENERGY (MME)
SITE PICTORIAL INFORMATION - PROPOSED COUNTY OFFICE

Lot One (1): Zwedru City, Grand Gedeh County | IFB No. MME/SBA/NCB/008/26

The photographs below are provided as **preliminary, first-hand visual information** to assist prospective bidders in obtaining a general appreciation of the proposed project site and its immediate surroundings. They illustrate conditions observed at the time of the Ministry's site documentation, including existing vegetation, general ground appearance, nearby development, visible access areas and environmental features. They do **not** constitute a topographical, geotechnical, boundary, utility or other technical site survey.

 General view of the proposed site and surrounding environment.	 General ground and vegetation condition within the proposed site.
 Additional view of vegetation and general site condition.	 View showing the proposed site in relation to nearby development.
 Additional view of the proposed construction area.	 Visible access/open ground area and nearby existing development.
 Additional view of access/open ground adjoining the proposed site.	 General site view showing vegetation and visible utility infrastructure.

IMPORTANT NOTICE TO BIDDERS: These photographs are supplied solely as preliminary reference information. The Ministry of Mines and Energy (MME) **does not represent or guarantee that the photographs or other pictorial information are complete or sufficient** for the preparation, pricing, or submission of a Bid, or for determining site levels, boundaries, soil or subsurface conditions, drainage, utilities, access requirements, quantities, or construction methodology. Prospective bidders are therefore strongly encouraged to independently familiarize themselves with and verify the site conditions before bidding. Bidders may undertake a voluntary physical site visit or contact the Procurement Unit and the designated Ministry/County Mine officials identified in the Bidding Documents to coordinate site access, obtain further site familiarization, or arrange remote verification by telephone/video communication where appropriate. Each Bidder remains responsible for taking reasonable steps to satisfy itself as to conditions relevant to the execution and completion of the Works.
